

GEOLOGY PROFESSIONAL PORTFOLIO

Exploration • Geological Mapping • Sampling • GIS • Geological Data

Portfolio example for Fiverr

This document is a professional portfolio sample based on the geologist's stated experience. It is not presented as a confidential client report or as a substitute for an original client deliverable.

Professional Profile

Professional geologist with experience in mineral exploration, gold mining and lithium exploration. Experience includes geological fieldwork, mapping, sampling, GPS surveying, trenching, drilling, geological database creation, permit-area delineation, data interpretation and technical reporting.

Professional Experience

U.G.M SARL — Mali	2022–2025	General Manager / Geologist
Aurifex — Côte d'Ivoire	2021–2022	Geological Technician
Lithium exploration — Mali	2019	Exploration activities

Core Geological Services

- Geological surveys and geological mapping
- Geological and field sampling
- GPS surveying and positioning
- Layonnage / grid preparation
- Trenching and drilling activities
- Geological database creation and management
- Exploration permit-area delineation
- Geological data analysis and interpretation
- GIS and remote-sensing support
- Technical field reports and professional presentations

Example Project — Gold Exploration, Mali

Participation in a gold exploration and mining project involving field geological surveys, mapping, GPS positioning, sampling, trenching and drilling activities. Geological information was collected, organized and interpreted to support exploration planning and subsequent mining decisions.

Example Deliverables

1. Geological field report
2. Geological map and interpreted field observations
3. Sampling database
4. GPS/field-point dataset
5. Exploration activity summary
6. Technical presentation

Education & Qualifications

Master 2 / Engineering Degree — Water & Environment, Geology option

2iE, Burkina Faso — 2022

Bachelor's Degree — Geology

Faculty of Sciences and Technologies of Bamako (FST), Mali — 2019

Additional Training

Additional training reported in computer skills, public speaking, geometry, electricity and other technical areas.

Portfolio Skills

Geology • Mineral Exploration • Gold Exploration • Lithium Exploration • Geological Mapping • Geological Survey • Sampling • GPS • Trenching • Drilling • GIS • Remote Sensing • Geological Databases • Data Interpretation • Technical Reporting
